18th annual Camellia Ball to be held Feb. 4

Black-tie fundraising event to raise money for AnMed Health Pediatric Therapy Works

(Jan. 26, 2012 – Anderson, S.C.) – The AnMed Health Foundation’s 18th annual Camellia Ball is scheduled for Saturday, Feb. 4 at 8 p.m. at the Civic Center of Anderson. This black tie gala is filled with dancing, networking, fine food and drinks all for a worthy cause.

The event raises money to support the young patients at AnMed Health Pediatric Therapy Works. Pediatric Therapy Works provides specialized care to hundreds of children with developmental disorders and delays, such as autism, spina bifida, Down’s syndrome and cerebral palsy. Physical, speech and occupational therapists and rehabilitation specialists help patients achieve their maximum physical, intellectual and emotional development. Pediatric Therapy Works is committed to giving each child the chance to grow up and become as independent as possible. Last year’s Camellia Ball raised \$119,000 to help support this unique pediatric rehabilitation program.

Tickets to the Camellia Ball are available for purchase at www.anmedhealth.org/camelliaball. Tickets are \$125 per person or \$75 per person for those 35 or younger. Table sponsorships are also available and range from \$500 to \$2,500 for reserved tables of two to eight. Call the AnMed Health Foundation at 864-512-3477 for more information about this premiere event.

About The AnMed Health Foundation

The AnMed Health Foundation was established as a 501(c) 3 organization in 1992. The Foundation provides financial support for AnMed Health programs that serve residents who desperately need health care, but simply cannot afford it. Programs supported by the Foundation include the AnMed Health Community Health Center Network, Pediatric Therapy Works, the Medical Outreach Van, and the Chaplain’s and Lifeline Funds. To learn more about the Foundation, call 864-512-3477 or go to www.anmedhealth.org/ourfoundation.
